

Harness the power of claims data like never before!

COREREPORTS

Powered by **D2Hawkeye**[®]

Your CoreSource for Powerful Reporting Solutions

Information is power. With our industry-best reporting tools, CoreSource can help you harness the power of your plan data like never before.

CoreReports allow you to:

- Discover key cost drivers by employer group, division or plan.
- Examine up to 24 months of historical data.
- Integrate reports with CoreSource healthcare management programs for one effective total population management solution.
- Design a customized benefits plan that meets the unique needs of your group.
- Benchmark your plan's cost and utilization results against a normative database of more than 2 million self-insured employee lives.

CoreReports Powered by D2Hawkeye[®]

CoreReports from CoreSource help plan sponsors make intelligent health plan decisions, and keep medical plan costs in check. Powered by data mining technology from D2Hawkeye[®], CoreReports aggregates an employer's claims, eligibility and pharmacy data, and turns it into easy-to-understand, actionable reports.

Comprehensive, Understandable Reports

Each month, you'll be notified by your CoreSource client manager that your up-to-date reports are available. From there, you simply log on to CoreSource's secure CoreView website and download your reports in multiple formats. There are more than 30 graphically vibrant CoreReports now available from CoreSource.

CoreReports include:

- Membership, cost and utilization metrics
- Claims expense distribution
- Plan cost trend
- Network analysis
- Pharmacy spend analysis
- Quality and risk measures
- Common chronic illness analysis
- High-risk member claims analysis

...and more.

Plan Modeling

The power of your data doesn't end with a monthly report. Your CoreSource client manager can use your claims data to visualize the financial impact of changes to the design of next year's plan. We can mix and match a variety of deductible, co-pay, network discount and pharmacy benefit options, helping you take the guesswork out of the health plan selection process.
