

Kidney Dialysis Specialty Network

Significant Savings Available with CoreSource

A Serious Issue for Many People

According to the National Kidney Foundation, 26 million Americans have Chronic Kidney Disease, and another 20 million are at increased risk. About a third of those at risk people have diabetes. As a result, access to affordable treatment options may be a serious issue for many of your plan members.

Golden Triangle Specialty Network

Golden Triangle Specialty Network (GTSN), available through CoreSource, provides outpatient kidney dialysis care at substantially discounted rates. GTSN and its many providers, vascular access centers and dialysis specific laboratories helps detect early signs of Chronic Kidney Disease and treat those who have it.

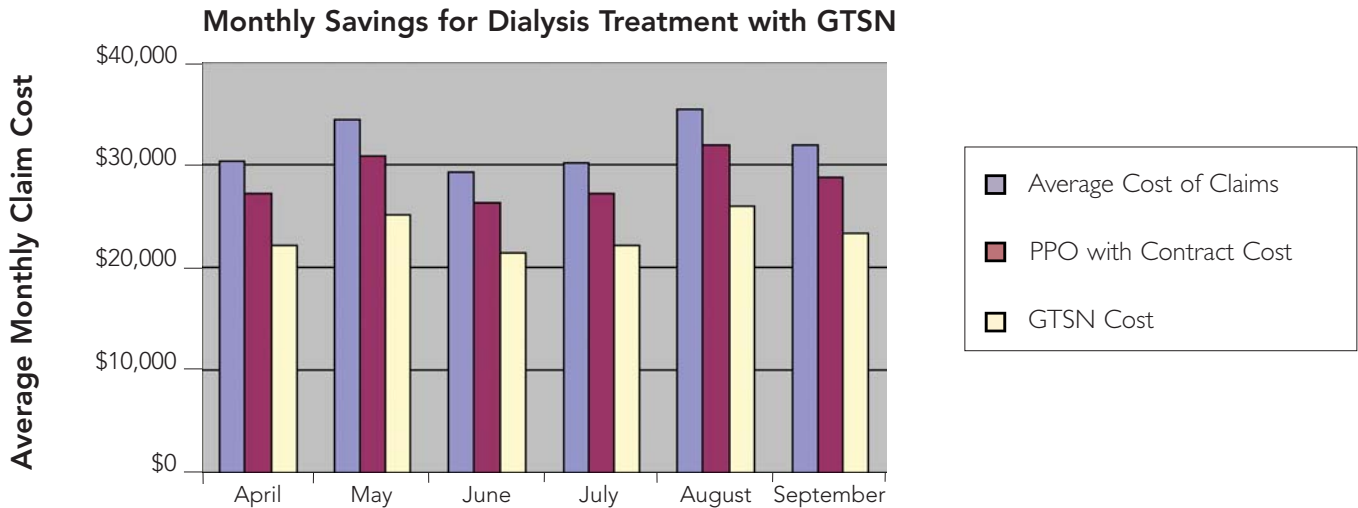

The Golden Triangle Specialty Network offers:

- Average savings of 27%
- An experienced staff that understands the dialysis industry
- Individually reviewed claims that are checked for errors (no mass re-pricing)
- Direct contracts with both national, regional and local providers

Golden Triangle and CoreSource Healthcare Management

All dialysis care needs to be pre-notified with CoreSource Healthcare Management using the phone number on the back of the employee's ID card. A Healthcare Management Dialysis Care Coordinator will assist in accessing the GTSN depending on the treatment options.

A Specialty Network that Makes a Difference

Lowering Treatment Costs

Monthly claim amounts for kidney dialysis treatment can total over \$30,000. A typical PPO will discount those costs by 10 – 15 percent. With Golden Triangle, average savings are 27 percent or more than \$61,000 annually.

Personal insurance or the employer usually pays primary coverage for dialysis treatment for a period of 30 months. After 30 months, Medicare takes over primary coverage with any left over amounts covered by the employer or personal insurance.*

Call Us Today!

For more information about the Golden Triangle Specialty Network and how plan members can achieve optimum discounts for kidney dialysis treatment and help lower their health risks, contact your local CoreSource Sales Executive or Client Manager.
