

PrecisionRx

Specialty Solutions

The Cutting Edge of Cost-Containment.

CoreSource Edge plugs the gaps that exist in many self-funded plans. And chances are, you'll be amazed at the savings, especially when there's nothing to pay for up front.

CoreSource Edge is:

- PrecisionRx Specialty Solutions
- Out-of-network discounts and fee negotiations
- CoreSource Recovery (subrogation)
- Hospital bill auditing
- Fraud detection

PrecisionRx Specialty Solutions Added to CoreSource Edge

CoreSource Edge keeps finding ways to help you save. The latest addition to this great cost-containment family is PrecisionRx Specialty Solutions, from WellPoint.

Because of WellPoint's size, discounts are negotiated straight from manufacturers. With CoreSource, big savings are passed on to customers at no extra cost and with great personal service.

Avoiding Big Costs

Specialty drugs are used to help treat chronic and complex conditions, such as cancer, multiple sclerosis, and rheumatoid arthritis, to name a few.

Specialty drugs represent less than two percent of medical claims, but even one drug can cost as much as \$300,000 per year. Plan participants typically get charged up to 10 times the average wholesale price.

From a group plan perspective, a 500-life group may see potential savings of \$40-\$50K annually!

No Risk. Just Rewards.

PrecisionRx Specialty Solutions is pure savings. There's nothing to pay for, and it costs nothing to implement. CoreSource simply retains, and caps, a small percentage of the savings.

Getting Started Is Easy

Reducing plan costs on specialty drugs is easy. You tell us you want this service and we'll show you how to save. There's no need to reissue ID cards. We'll just amend your plan.

Here's how the program works:

- We scan your claims and identify the participants in your group who can benefit from specialty pharmacy pricing.
- PrecisionRx Specialty Solutions sends that participant a letter, telling them greater convenience, savings and service are now available. The letter provides a number to call to find out more or verify participation.
- PrecisionRx Specialty Solutions notifies the provider and initiates the transition. A team of medical professionals then monitors each treatment plan and works with the provider to keep administration easy, and plan participants engaged.
- Care Coordinators help plan participants to stay on top of refills, and offer guidance.
- We show you the savings
